CARRANZA WILL INSIST ON WITHDRAWAL

FIGHT OR RETREAT, IS DEMANDED BY TREVINO

Conflicting Reports as to Survivors of Carrizal Fight Reach Border, But Are Unverified

ALL EXCEPT 43 IN CAMP, IS ASSERTED

Accounts Arriving at El Paso Says Only Seven Escaped in Massacre of Negro Cavalrymen

CHIHUAHUA CITY, June 24.—American columns have been seen advancing from the American field base in the direction of San Antonio and Ojo Caliente and General Trevino has issued orders to attack them if they do not immediately retreat. General Trevino said the Americans would get the same treatment that they received at Carrizal, as he is determined to carry out his orders to the letter. In this, he said, he had all his subordinates with him and they will stick with him in case of a rupture.

SAN ANTONIO, Texas, June 24.—General Pershing reported today that one packer and eight enlisted men of Troop K and seven enlisted men of Troop L, Tenth Cavalry, were picked up this morning north of Santa Maria. They were located by Troop M of the Tenth, under Lieutenant Henry Metter. All of them were included in the group detailed to care for the horses at the Carrizal fight and their stories were substantially the same as those of other stragglers. They brought back twenty-five horses. Although no official information has been received, indications are that eighty-four officers and men either were killed or captured, or are on their way back to camp. It is feared

Committee to Aid Families of Boys in Khaki Named

The Chamber of Commerce Committee on Military Affairs, organized by the business men of the city for the purpose of handling problems of military preparedness during the mobilization of the state militia and their presence at the border, has been announced by President Joseph H. Kling.

Victor H. Motz, former Secretary of the Navy, is chairman of the committee. Associated with him is Stewart Hawley, holding a commission granted for military training at the University of California; B. A. Forrester, who has seen active field service as captain with the army during the Spanish war; C. B. Daniels and Dr. A. F. Kelley.

The committee will have general supervision of civilian assistance to militiamen. All work of aiding the families of men who are away at the front will be handled under the direction of the Motz committee. It is probable that sub-committees in districts will be named.

Already cases of need have come to the attention of the men interested in this feature of military emergencies. Yesterday a pathetic appeal was made by a mother, whose son, her only support, had joined the ranks of the guardsmen. Her husband has been dead some months, her six-month-old baby is, like herself, in need of food, and the boy, in khaki, is marching behind the colors of his country to the mobilization camp. She is alone, ill and helpless and made a worthy appeal for immediate aid.

It is anticipated that many such cases will come to the attention of the committee and that the patriotic merchants and business men of the city will be glad to help. No effort has yet been made to collect funds, but Chairman Motz will call a meeting of the committee at once to plan an organized scheme of relief.

In addition to The TRIBUNE the following firms and corporations have announced that they will pay the salaries of their employees who go to the front during the time they remain in service, and that they will hold their positions open for them: Rees-Farabee Owl Drug Company, the Goodrich Rubber Company, the American Tobacco Company and the White House and the United Railroads of San Francisco.

FULL HEARTS AND WARM TEARS BEHIND BRAVE SMILES THAT BID "BOYS" FAREWELL

'RORY' WITH THE BOYS AT SACRAMENTO

GERMANS ARE FORCING RUSS TO HALT DRIVE

PETROGRAD, June 24.—The capture by the Russians of the town of Kut, in Galicia, across the Bukovina boundary, at the foot of the Carpathian mountains, was announced today by the war office.

BERLIN, June 24.—The German counter-attack against the Russians under General Brusiloff in Volhynia has now developed over a front of eighty miles, extending from Kolki, on the Stry river, almost to the Galician frontier. General von Linde's forces have enveloped the Russians who here had driven a big bend into the Austro-German lines in front and on both flanks, and now, according to all reports reaching here, are slowly but surely pressing the Russians back all along the line in the general direction of Lutsk.

To relieve the pressure upon this semi-circle, before Lutsk the Russians have resumed the offensive against General Count von Belhimer's lines along the Galician frontier, but attacks here and southward along the Strpa river, although executed with great determination, failed to make any impression upon the Austro-German lines.

BEHIND THE SCENES, SIMPLE PATHOS 'MID GALLANTRY

Captains and Companies Courageous Assemble and Depart Without Vaunting or Military Panoply

By "RORY."

SACRAMENTO, June 24.—Before this I had always been strictly on the "outside." I had seen troops go away to war; had had that lump in the throat feeling; had been stirred to enthusiasm by the blare of bands and the ringing of cheers and farewells; but I had never, before yesterday, got on the "inside," so to speak; had seen a great drama of life enacted from "behind the scenes."

For I entrained with Battery B to the great camp at Sacramento for National Guardsmen who answered the call "to arms" and was touched to the quick with the pathos of it all.

Father that I had no idea would be shown or even existed in the makeup of the man who leaves loved ones behind to go forth to fight for his flag and his country.

To all of you who were at the station of the Oakland, Antioch and Eastern railway yesterday afternoon; to you who were there to see your son, your husband, your sweetheart or your friend take train to answer

the call; to you who tried to smile to hide the tear; to you who bravely gulped down your emotions, and to you who openly and bravely, too, let forth your flood of tears as you waved "goodbye," I say, and say truly, that though strong men they be, their eyes were dimmed, their smiles were forced.

I know. I was there with them, and merriment was far from their thoughts as the train crept slowly away. I'm glad I took that train instead of the regular trip I had intended, for I saw a drama, so exquisitely, beautifully real, so human, that suddenly, it seemed to me, these big fellows were all stripped of their uniforms and chevrons and decorations, and were merely big boys with big hearts and great loves. A great feeling was expressed by the crowd without and repressed by the men within.

It was love.

The same love that Lieutenant Vickery has for his dandy fox terrier, "Dooley," that prompted his answer

(Continued on Page 2, Col. 1)

WILL BE 10 DAYS BEFORE GUARDS RIDE TO BORDER

SACRAMENTO, June 24.—It will be ten days or two weeks before any unit of the California National Guard entrains for the Mexican border, and it now virtually is certain that every unit of the guard will mobilize at the state mobilization camp before proceeding to duty at the front, unless rush orders to go are received. These announcements were made unofficially today at the capitol.

There is much which must be done before the troops can be moved. The men must be equipped thoroughly for service; they must be examined by surgeons of the United States army and they must be mustered into the service of the United States army.

Adjutant-General C. W. Thomas went to the mobilization camp today for the purpose of straightening out the links in the commissary department, which were the cause of men going hungry, and the delays in providing provisions or meats. The California troops still are under the National Guard and their status will not change until they are mustered into the service of the United States army.

Fourteen hundred officers and men

BREAK HINGES ON CARRIZAL ATTACK REPORT AWAITED

Occupation of Northern Mexico Will Be Ordered by President if Story That Troops Were Massacred Is Borne Out

WAIT WORD FROM GEN. PERSHING

Repudiation to Be Demanded by Government of Onslaught of Carranzistas; Believed That U. S. Soldiers Were Deliberately Led Into a Trap

WASHINGTON, June 24.—General Carranza will answer the last American note by renewing his demand for withdrawal of American soldiers from Mexico, according to information given to officials here this afternoon.

MEXICO CITY, June 24.—Secretary Lansing's statement to the Latin-American diplomats has caused an excellent impression here. It is now believed in official circles that the prospects for a peaceable solution of the present difficulties between the United States and Mexico are promising.

WASHINGTON, June 24.—Relations between the United States and the de facto government of Mexico are close to the breaking point today as a result of the belief that American cavalrymen were massacred Wednesday at Carrizal by Carranza soldiers.

Secretaries Lansing and Baker were at the White House early conferring with President Wilson. It is known that the possibility of drastic retaliatory action against the Mexican forces in Chihuahua was given grave consideration. If the Carranza government accepts responsibility for the attack at Carrizal it is considered very certain by officials that occupation of most of Northern Mexico will be ordered by President Wilson to take place as rapidly as the necessary military forces can be placed at the disposal of General Funston.

Action must await further reports from General Pershing. His message last night indicating that only seven men of the two troops of cavalry had survived, in addition to those taken prisoner, had not been supplemented at an early hour.

It is believed the first act of the Washington government when fuller information is at hand will be to demand repudiation of the Carrizal attack by the Carranza government. Preliminary reports have convinced officials here that the American troops were deliberately led into a trap.

To Demand Repudiation

Unqualified repudiation of the attack and immediate surrender of prisoners probably will be demanded. Following a conference with President Wilson, lasting one hour, Secretary of War Baker said:

"We are obliged to wait for further word from General Pershing before we can determine our course of action."

"The only thing we have thus far, aside from that coming from Mexican sources, is the report of a few stragglers who were considerably in the rear of the point where the Carrizal attack occurred," Baker said.

"The men had been left to hold the horses and act as a rear guard, while the others went forward. Apparently when the firing started and our horses began to stampede, these men scampered away, so that they were not near the place where the parleying was going on and probably were considerably back when the shooting began."

"We are compelled to wait, there," he said, "until we hear from the two troops of cavalry sent out to bring back what remains of the troops engaged in the Carrizal fight. Until we get that report there is absolutely no change in policy to be considered."

"The public will not have to wait five minutes for the contents of General Pershing's report when it comes in," Baker said.

The forces under Captain Boyd were under explicit orders from General Pershing to confine their operations exclusively to scouting. They were specifically commanded to engage in no fight, or to make no move which threatened to precipitate a fight, unless actually attacked. If Boyd was commanded to stop or refused permission to advance by General Gomez and advanced regardless, he violated his orders and there will be no declaration of war because of the Carrizal incident.

Situation Most Serious

If the reports made so far by the escaped negro troopers of the Tenth cavalry that Captain Boyd had stopped his march at the command of Gomez and that the Mexicans fired on the troopers after they had halted are confirmed by an officer, President Wilson's threat of the "gravest consequences" will at once be made good.

Action is not to be taken on the word of the troopers because it is realized the enlisted men had no part in the parley between Gomez and Boyd and could scarcely have been familiar with all the details.

There is no minimizing the seriousness of the situation at either the White House or the War Department. It is admitted that the likelihood of a break has never been so great.

The effect has been sobering. There is little disposition to talk at either the White House or the War Department. Both departments are keyed for action. At both points it is admitted that Pershing's next report will probably decide the issue.

Await Word From Morey

According to administration officials, a break will find this government prepared. There will be no hasty dash to make a clean-up of the situation. The war will not be a war of conquest, if it is conducted by the present administration. If introduced in Congress the resolution authorizing the President to declare war will specifically declare that, under no condition will the United States seek to profit territorially or otherwise by an invasion of Mexico.

In the event of an actual break with Mexico, it is not expected that the militia organizations will see service south of the border for several months. It is figured at the War Department that the situation will call for a heavy border guard and that, while functioning in this fashion, the militiamen will become acclimated and be ready for real campaigning in the fall. In the meantime, the regulars and the fleet will be conducting any offensive that the War Department plans make necessary.

BOYS OF BATTERY
B BID FAREWELL

(Continued From Page 1)

"When I asked if the dog was the mascot of the battery," "One of the greatest railroad engineers in the country."

The trip was a smashing success. The man at the motor helm was George.

I didn't get his last name. "Oh George, you mean?" Manager Mitchell asked me. "One of the greatest railroad engineers in the country."

I believe it. He handled that train of seven flat cars loaded with great heavy cannon and other things; a large box car with three horses and three coaches, besides his own combination baggage and motor cars and several other baggage cars, like a child with a toy, now nursing it along, now letting it have full play, but never a far or a jolt.

George thought of the horses. It was very late when we arrived at the State Fair grounds, where the troops are encamped.

The grounds were pitch dark. It was 3 o'clock in the morning. The thin streak of the headlights was the only relief to the eye, for it showed the way ahead to the entrance of the grounds, where stood the lone sentry, with his gun held diagonally across his breast, asserting his authority to challenge the right to enter.

TROOPERS' FATE
NOT DETERMINED

(Continued From Page 1)

The American column was practically annihilated.

Lem Spillsbury, the Mormon guide with the Americans, who was taken to Chihuahua City as a prisoner, is understood to have said he saw two officers and twelve troopers dead on the field.

PERSHING'S REPORT.

General Pershing, in his report today, referred to the number of those who previously had returned to the American lines as eleven, although in previous dispatches he fixed the number at seven. With those who were rescued by Lieutenant Meyer, the total number of those who had returned was twenty-seven.

The total number of men in the two troops was learned today to have been eighty-two. General Pershing, offering a summary of his information and explaining that his conclusions were based on such information as he had secured from the struggle and from press reports that called attention to the indication that there were fifty-seven missing and that press reports indicated fourteen of these were dead and forty-three were prisoners. General Pershing does not account in his report for the number of wounded, but appeared to assume that all those wounded had been captured.

General Pershing reported that he had received no report from the commander of the two squadrons of the Seventeenth Cavalry that had been sent forward to rescue the remnant of the Tenth.

COLUMBUS, N. M., June 24.—All of the American force which engaged the Mexicans at Carrizal have returned to the field base excepting Captain Boyd and Major, Lieutenant Adair and forty troopers, according to a report brought here today by arrivals from the interior.

The three officers are believed dead. According to this report, the total of American dead in the battle probably was twenty-six, unless some of the troops still are wandering in search of the expeditionary force. Seventeen prisoners have been taken to Chihuahua City.

Mexican reports that twelve American dead were the scene of the engagement would indicate, if the latest details are correct, that four troopers either died from their wounds, were killed in later fighting or have not succeeded in reaching their base.

\$30 a Month Pay
for Guards Fails

WASHINGTON, June 24.—An attempt immediately to pay the National Guardsmen on the Mexican front \$30 a month failed today after a bitter debate, in which it was charged that the money would make mercenaries of the militia.

Pope to Plead
To Avoid War

LONDON, June 24.—Pope Benedict will appeal to President Wilson and General Carranza in an earnest endeavor to avoid war, said a Rome dispatch circulated by the Wireless News Agency today.

WASHINGTON, June 24.—Neither mediation nor arbitration could be considered in the present case, high officials said today, when shown London wireless reports that Pope Benedict was making offers of mediation to both President Wilson and General Carranza. It was indicated the two governments alone can now solve the present problems.

STATE GUARD TO
WAIT TEN DAYS

(Continued From Page 1)

of the California militia are mobilized here today. They will be sent to the Mexican border some time next week.

The Second Infantry, Troop B of the Sacramento cavalry, Company B of the San Francisco signal corps, Battery B of the Oakland field artillery and the ambulance corps of Napa are in camp.

Adjutant General Thomas issued orders for the following units to report here during today or early Sunday: Troop C of Salinas, Troop A of Eureka, Battery A field artillery, Troop D of cavalry and 2 field hospital from Los Angeles. The Los Angeles soldiers start north at 8 a. m. tomorrow and the Salinas contingent shortly after 11 a. m.

The Second Infantry has 43 officers and 895 men on hand, the Fifth Infantry of Oakland 45 officers and 883 men, Seventh Infantry of Los Angeles 48 officers and 889 men, Fifth Squadron of cavalry of Sacramento 15 officers and 299 men, Oakland artillery 20 officers and 408 men, San Francisco signal corps 2 officers and 87 men, Sacramento ambulance corps 2 officers and 77 men and the Los Angeles field hospital 4 officers and 50 men.

Four hundred and twenty-seven men have enlisted in the new units during the last twenty-four hours. As fast as the organizations are ready Captain H. A. Baughman, U. S. A., will muster them into the federal service.

U. S. TO REJECT
MEDIATION OFFER

WASHINGTON, June 24.—News that some of the South and Central American republics were preparing to initiate offers of mediation in the crisis between the United States and Mexico drew from high officials here today a strong intimation that the United States, engaged only in protecting its people and territory, considered there was nothing to mediate, so far as the policy of this government was concerned.

SAN SALVADOR, Republic of Salvador, June 24.—The foreign office received today a cablegram from the government of Ecuador urging all Latin-American governments to take common action to avert war between the United States and Mexico. The government replied immediately approving the initiative of Ecuador.

BUENOS AIRES, June 24.—The Argentine government will dispatch a note to Chile today or tomorrow positively declining to intervene with other South American republics at the present time in an effort to prevent war between Mexico and the United States. The communication will be in reply to a message from the Chilean foreign minister suggesting that all Latin-America join in such a movement.

OAKLAND GUARDS-
BUSY AT ARMORY

Companies A and F, the two Oakland organizations of the Fifth Infantry, National Guard of California, will leave for Sacramento tomorrow, probably early in the morning, according to messages received today from the adjutant-general's office in Sacramento. It is not thought likely that the infantry companies will make the trip tonight, although Colonel Hunt of the regiment, said today that the companies probably would be in shape to do so.

"We must wait for orders, however," said Colonel Hunt, "and I do not expect that we will be ordered out until tomorrow morning. It is inconvenient to pitch camp at night."

Colonel Hunt received word that the assembling of all militia companies will be rushed to the earliest possible moment. On receiving this message this morning he informed the adjutant that his men would be ready tonight. In the case of Battery B of the artillery the men were ordered out last night after being reported ready in the morning.

Oakland's remaining National Guardsmen today drilled in the armory, instructed recruits, and awaited orders. In a "clear" armory, the great wagons and cannon that had crowded the drilling ground in the center of the building since the call to arms went out were gone. They left last night, when Battery B of the Field Artillery, to the effect of a great crowd that gathered at the Oakland-Antich station, or followed the boys in khaki from the armory, pulled out, Oakland's first detachment to the mobilization camp in Sacramento.

As crowds sang "America" and waved flags, the artillery company boarded the six cars of the special train chartered for the occasion. Major Ralph J. Faneuf, his adjutant, Captain Fred Petersen, Captain H. F. Huber of the battery and other officers directed the entrainment. While the guns were being rolled out of the armory a special guard was thrown about the building to keep the crowds from interfering with the entrainment. The great wagons and the four heavy guns and the full equipment of ammunition and supply wagons and all necessities. No horses were taken on the train last night save the personal mounts of the staff officers and horses will be furnished in Sacramento. The guns were hauled by motor trucks and the smaller rolling stock by horses loaned by the Oakland post-office.

Company G of Alameda was the first infantry company to receive direct orders from Sacramento, being ordered to leave at 10 o'clock. It was possible for the mobilization camp. It had reported "ready" last night.

Many touching incidents crowded the farewell to Battery B. At 2 o'clock when assembly blew, twenty-fourth street was crowded with women and children waiting to say farewell to loved ones. So did the crowd become that, to avoid confusion, the infantry companies threw out guards.

At the station, as the men clambered aboard the cars, last farewells were said. The little daughter of Major Faneuf clung to him until he shook her gently away and hurried off to direct the movement of his battery.

Battery B left fully equipped, even to horseshoes and coaks. With the battery went a hospital detachment of twelve men.

Company G, Alameda
Guard, Ready to Leave

ALAMEDA, June 24.—Company G awaits the order to move. Since early dawn when the word came that the company would be ordered to Sacramento tomorrow, the guardsmen have been ready. Within two hours from actual moving orders the company can report at the designated entraining depot. The guardsmen expect to go tonight or tomorrow morning to the mobilization camp.

Company G. P. Magagnoli will take with him between eighty and ninety men. The number will not be known until the company leaves for recruits are still coming in. Following the public farewell last night a half dozen new men were enlisted.

At the armory this morning there is more or less orderly confusion. More women and young girls are visiting the armory this morning than on any previous day. Many of the girls are wearing long and little knick-knacks. Anxious mothers are asking the officers to look out for their boys and are asking other soldier friends to exercise watchful care over each other. Still other mothers, sisters, wives and sweethearts are keeping away from the armory. Some of them are well-nigh heartbroken and sadly distraught with fears aroused by the alarm of war. These are nursing their grief and sorrow and worry at home and probably will not even be present when the company starts away. Many mothers and other women relatives and friends of the young soldiers did not attend the public farewell last night. The excitement and patriotic feeling, the sight and the music, the reckless laugh of the young soldiers and all the care-free actions and the celebration features could not drive away from anxious worried hearts the thought of what may transpire in the future. The short addresses of two veteran soldiers carried with them a grim vein plainly pointing to hardships and privations. If not to actual danger on the battlefield and the mind pictures conjured from their words by relatives of the militiamen lent a pathetic and subdued air to the demonstration.

As far as personnel is concerned, Company G stands an excellent chance of having nearly all the men accepted. They have passed the severe physical examination most of the men are young many of them are athletes and their outdoor life on the baseball field and swimming and boating, has given them exceptionally sound constitutions.

The managers of the public farewell are now turning over the proceeds which will go into a purse to be given to Captain Magagnoli for the good of the company. The purse will probably total \$250 or \$300.

COUNTER-ATTACK
GAINS FOR FRENCH

PARIS, June 24.—In an impetuous counter-attack last night, French troops recaptured a large part of the positions lost to the Germans in yesterday's violent fighting on the northern front of Verdun, the war office announced today.

A large sector of the trenches surrendered to the Germans between hills 321 and 320 was recaptured. The Germans were thrown out of the Thaumont works, which they took in yesterday's fighting. In the same attack the French recaptured all the trenches lost to the Germans on the night of June 21 between Fumin and Chenonville woods.

ERUPTIONS ON HEAD
FACE AND ARMS

Of My Little Girl. They Were Very Disfiguring and Caused Itching. Child Very Cross and Fretful.

HEALED BY CUTICURA
SOAP AND OINTMENT

"When my little girl was three and one-half months old, she had eruptions break out on her head, face and arms that were a kind of miliary scales which were very disfiguring and caused itching so that little as she was I had an awfully hard time keeping her from scratching, and no night when I wasn't watching her would cry and scratch till the blood would run. The skin was inflamed and red, and the eruptions made her very cross and fretful. She got so disfigured I did not know what to do.

"She had no relief until I used a free sample of Cuticura Soap and Ointment. I bought more and after using almost a full-sized box of the Cuticura Soap together with the Cuticura Ointment together with the Cuticura Soap she was healed."

DIVORCED YEAR,
ARE WED AGAIN

After battling their way through the courts for a divorce decree, war has ceased between Charles F. Mars, a contractor of 1510 Forty-first street, and his wife, Annie Mars, who became his bride for the second time last night at a ceremony performed by Justice of the Peace Quinn.

"Our separation has done us little good," Mrs. Mars explained after the ceremony.

Mrs. Mars was granted an interlocutory decree in March, 1915, on the grounds that her husband had on one occasion broken a mandolin over her head because she did not get out of his way quickly.

At the hearing of the case Rex Spaulding, a daughter of Mrs. Mars by her first husband and Maybelle Mars, a daughter by her second, testified in behalf of their mother. The final decree was signed by Judge T. W. Harris on April 7 this year.

After three weeks' estrangement following a lower court quarrel, Mrs. Vivian Armstrong-Erickson, divorced wife of Leroy K. Erickson, Standard Oil Company employee, is now the bride of Eustace Bell, a San Francisco broker whom she married at the Palace Hotel last Thursday. Announcement of the wedding was made last night at the home of the bride's mother, Mrs. Alma Armstrong, 915 Lakeshore avenue.

Mrs. Bell obtained a divorce from her first husband two years ago on her cross complaint to his action against her. They had lived together less than a year, having spent a portion of that time in the Orient where the husband went on business after their marriage in November, 1912.

98th Semi-Annual Payment of Interest

4%

For the six months ending June 30, 1916, a dividend has been declared at the rate of four per cent per annum on savings deposits, payable on and after July 1, 1916. Dividends not called for are added to and bear the same rate of interest as the principal from July 1, 1916.

Deposits made on or before July 10th bear interest from the first of that month.

JOHNNY GOES RIDING AWAY OFF FOR SACRAMENTO

The camera's story of the departure of Oakland's guardsmen.

No. 1—Company C, signal corps, entraining for camp.

No. 2—A soldier's good-bye. Major R. J. Peneuf, field artillery, bidding farewell to his daughter, Lorraine, as Battery B boarded the train for Sacramento.

No. 3—Hot weather relief. Lieutenant E. E. Vickery presented with a cornucopia by a fair spectator.

No. 4—Battery B, field artillery, loading the big guns on the flatcars.

No. 5—Miss Margaret Carter says farewell to Harold Johnson of the battery.

No. 6—William Suerstedt, grandson of a Grand Army veteran, and the little sister he left behind.

No. 7—Captain Dennis Daley of Berkeley, who asks Oakland women to make bags, such as he holds in his hand, for the soldier to carry his effects in. Many soldiers have no mothers or sweethearts, and someone else must make them those conveniences. With him is Sergeant Herbert Goldman (at typewriter), the company clerk.

No. 8—Fred Lovely and his two best friends, Miss Alie Vestal, and "Mike," prize horse and pet of the battery.

No. 9—Battery B caissons ready to be towed by automobile to the train.

COMPANY G CHEERED BY TOWNSFOLK

Thousands Pay Honor
to Alameda's Depart-
ing Guardsmen

ALAMEDA, June 24.—Alameda's public farewell to Company G will live long in the memories of the guardsmen and the townspeople. Hundreds of flag-decked autos paraded the city for an hour last night, preceding the entertainment and dance at Palm Beach. Two trucks filled with musicians headed the parade and played lively marches and patriotic airs as the line of autos trailed through the principal streets. The motor-driven fire apparatus, with shrieking sirens and caucous horns, added to the excitement, and the police, under the direction of Chief Conrad, also participated.

The number of autos in the procession amounted to a half a dozen. Parade Marshal E. N. Delaney and his assistants commanded almost every car in sight. The guardsmen rode in autos with civilian chauffeurs and female drivers. Colonel A. G. Hunt and staff, including Major Leo Francis, Lieutenant Martin and other officers, had a half a dozen autos. The column then came the company officers of G Company, Captain C. P. Monaghan and Lieutenants Alvin R. Gunn and Jesse P. Delaney. The eighty guardsmen followed in twenty autos and then came a solid mile of other autos, all flag-decked and headed to the street with well-wishers of the young soldiers.

MANY AT BEACH.
At Palm Beach perhaps 2000 persons crowded in the playground for the program. Dr. W. C. Smith, served as master of ceremonies. The Fifth Regiment Band played and the Hippodrome orchestra also played. Colonel George D. Shadburne, a Confederate soldier, who served throughout the four years and participated in thirty battles, spoke briefly. He discussed the assigned topic of his personal reminiscences, saying the subject was too long for eight minutes and that the dead past could hurt his dead while we of today attend to the present and the future. He warned the guardsmen that America was on the brink of war, that the young soldiers had stepped from boyhood to manhood in a moment at the call of the country, and then said:

"Never doubt, you captain. Where you leads, you follow where he leads, you dare; where he dies, you die. You are leaving Alameda. You will be away, but not forgotten. On the eve of battle call on the God of Hosts for help. Go forth as the Spartan youth was sent to war. Return with your shield or upon it. If you return with it, we will hang banners upon you. If you return upon your shield, we will wear your grave with laurels."

THE CALL TO SERVICE.
Dr. Smith, in introducing Colonel Shadburne, Major C. L. Tilden and the other program participants, spoke briefly of the present crisis in Mexico, and said that something must be done to bring peace.

Shadow of War Upon Romance

Couple Cannot Wed as They Planned

BERKELEY, June 24.—Miss Blanche Lewis, a teacher in the Berkeley schools, and Dr. John B. Henderson, who has been practicing in a Central American center, will not be wedded next month, as they had planned. President Wilson's mobilization orders have knocked their nuptial schemes away, and Dr. Henderson is supposed by now to be on his way to join the New York military detachment of which he is surgeon.

Since the mobilization orders were issued, Miss Lewis has had word from her fiancé, but is momentarily expecting a message telling of his departure for his post. He had planned to come to Berkeley early next month to claim his bride, and was to have taken her back with him to Nicaragua, where he is employed by a large mining company.

Miss Lewis is the daughter of Rev. and Mrs. Thomas D. Lewis of Fulton street and was a teacher at the Hawthorne school. She was formerly a University of California student, a member of Alpha Omicron Psi society.

TO BE ASSISTANT PASTOR.
BERKELEY, June 24.—Rev. H. V. White, pastor of the Santa Clara Christian church, has resigned his pastorate there to become assistant pastor of the Episcopal church in this city, assisting Rev. H. J. Loden.

During the latter's summer vacation he will have charge of the church affairs and services. He is a student at the Pacific Theological Seminary, where he will complete his course next spring.

to the troubled republic and that it was the duty of the United States to bring about this peace. To do so American troops were needed, and the Alameda guardsmen had answered their country's call. He said the Civil war was but a slight testimonial of the eastern and admiration and love that Alameda had for her soldiers.

Major C. L. Tilden, a Spanish War veteran, said that the guardsmen were going on a hard trip, perhaps undertaking the most difficult campaign American troops had ever been sent out upon. He referred to Colonel Shadburne's thirty battles, which covered a period of four years, and said that the guardsmen might not see much actual fighting, but that they would be campaigning day after day and month after month. They would undergo privations and rigorous hardships, and he charged the company officers to look well after their men, not only in battle, but each day and night, to maintain the health and general welfare of every member of the company, to the end that the officers might return the men to Alameda, when the trouble ended in sound health. He charged the men with the duty of quickly learning to be thorough soldiers, and particularly charged them with the responsibility of helping one another. He predicted that out of the campaign would come a knowledge to influence the entire life of the young soldiers.

CAPTAIN MAGNUMS RECEIVED DEAFENING applause when he arose to say a few words. He spoke of Alameda's fine response to the call for soldiers, saying Company G in three days had recruited from thirty men to over eighty and was now the second strongest company in the Fifth Regiment, being exceeded only by the Berkeley company, which had six more men than the Alameda guard contained.

The captain said he had studied faithfully for four years to learn the full duties of a company officer to his men, how to look after them in camp and in field, to the end that their effectiveness should steadily increase and their general health and moral welfare be conserved.

Four diving maidens gave a unique and striking exhibition of diving and swimming. A trained horse posed in military tableaux to the accompaniment of lively and patriotic music. As the band played the national air the audience repeatedly rose to its feet and stood.

J. Butterworth, possessing an excellent baritone voice, sang "Soldier Boy" and "Wake Up, America," the audience joining in the choruses.

Following the program came dancing, which lasted until midnight.

RECREATION PART OF SUMMER COURSE

Instructor in Athletics to Arrange for Special Activities at U. C.

BERKELEY, June 24.—A new kind of university official has been invented for the summer season. His name is Frederick Cozens and he is officially known as instructor in athletics, but for the summer session his job is really recreation engineer. Cozens was wrecked last year when he was sailing off the coast of California. He was rescued by a fishing boat and taken to a hospital. To help the summer session students have a good time is the task to which Cozens has been delegated by Professor Frank L. Kieselberger, who is in charge of the department of physical education.

Cozens is planning "camp fires" to be held in the eucalyptus grove west of California hall at dusk every Wednesday evening, throughout the summer session. Under the leadership of Miss Margaret Bradshaw, a former associate of Dr. Luther Gulick and Professor J. C. Elison of the University of Wisconsin, specialists in Boy Scouts and Campfire activities, and with the aid of other members of the faculty, programs of singing and other music, story-telling, folk dancing and other sports will be arranged for these gatherings, which are planned to make the summer session students better acquainted with one another and to acquaint them with some of the tendencies of the times in community social service.

There will be a community dance, open to all the students of the summer Friday evening, in the Harmon gymnasium every Friday evening, with a corps of chaperones and hostesses organized by Mrs. Mary Blossom Davidson, assistant to the dean of women at the University of California, and with rooms devoted to games and talk for those who do not care to dance.

A big ferry boat is to be chartered for an all day cruise about San Francisco bay on July 8, with a caterer aboard for taking lunch baskets, and with a stop at Paradise park, formerly known as San Bruno, for dancing and other sports on shore.

Three or more basket lunch trips are to be led by Cozens on Monday evenings. The summer session will start forth from North Hall late in the afternoon and go in pilgrimage, one time to Wildcat canyon, another to the Berkeley hills to the old Fish ranch, have a picnic and reach home in the gloaming.

Longer water trips are being planned by Cozens, provided 20 or more students join the expedition, to Redwood Peak, Yosemite Canyon, Point Bonita, up Mount Tamalpais to Muir Woods, to the Diablo, to Niles Canyon and to Yerba Buena island, to see what Uncle Sam is doing in the field of preparedness.

Week-end trips are planned to Mount Hamilton and the Lake Observatory, to Willow Camp, to Bolinas Bay and to the Calaveras dam.

At his headquarters in the Harmon gymnasium, Cozens will maintain an information bureau as to the recreation events of the summer session as to points of interest in the country round about and how to get there, and as to what is going on about the bay, in the way of plays, notable moving pictures, art exhibitions, sports, etc.

CLUBS A FEATURE.
Locality clubs are to be organized for students from various parts of California, and gatherings of alumni of the various universities whose graduates are numerous among the summer session students.

And every opportunity is to be offered to the summer session students to participate in healthful outdoor sports, with various athletic meets, tournaments and other contests.

And with all this to look after, Cozens is also to spend most of his afternoon during the last three weeks of the summer session, giving training in baseball to the students who wish to become expert coaches for college or school or playground baseball teams.

For the past two years Cozens has coached to victory against Stanford the freshman baseball team. He entered the University of California as an upper-

OAKLAND GIRLS ESCAPE DROWNING

Step Into Deep Water on Beach; Thrilling Rescue Is Made.

ALAMEDA, June 24.—Miss Beale Boyer, a 15-year-old Oakland girl, had a narrow escape from drowning off the Washington park beach yesterday afternoon when she waded far out from shore, and suddenly slipped into the deep water of the mid-day channel. With her was Miss Eleanor Montgomery, another Oakland girl, 12 years of age and a University of California student. The two girls, one of them half-drowned and unconscious, were rescued by A. M. Schander and Albert Norton of this city, who heard the cries of the other for help and went to their assistance in a swift, narrow canoe from downtown Oakland.

Miss Boyer was hurried to the Emory hospital. It was an hour or more before she was fully restored to consciousness and sufficiently revived to be taken to her home at 2615 Twenty-second street. Relatives were notified by phone of the hospital before taking Miss Boyer home.

Miss Montgomery, though her life was imperiled, was in no particular danger after being helped ashore. Miss Montgomery is the daughter of Curtis P. Montgomery, cashier of the Twenty-third avenue bank.

Schander and Norton jumped overboard from their small craft, to more quickly rescue the girls, each man swimming with a girl until ashore water was reached. Schander was about exhausted by the frantic struggles of Miss Boyer before he managed to get the girl and himself out of danger.

Death Parts Sisters; Together 40 Years
BERKELEY, June 24.—Death has parted two sisters, the Misses Alecia and Catherine Sweeney, who for 40 years or more have lived together in this city, for the past 20 years of their time at 205 University avenue. Miss Alecia Sweeney, suffering injuries in a fall a short time ago, died at this residence.

Like her sister, Miss Alecia was a native of County Louth, Ireland, and was 84 years of age. Her sister is a few years younger. They came to this State from Ireland a half century ago, and worked side by side for that period in the business of acquiring property here and in Arizona.

Funeral services for the deceased woman were conducted this morning at St. Joseph's Catholic church. Interment was at St. Mary's cemetery.

classman, coming from Oregon, graduated in 1915 and since then has been a member of the faculty of the department of physical education.

Sail O'er Seas for Wedding Service

Miss Jenness to Be Bride of Navy Man

MISS LORETTE JENNESS, WHO WILL TRAVEL TO PANAMA TO BECOME THE BRIDE OF NAVAL OFFICER—McCullagh photo.

Will Be Wedded to Lieutenant Robert Rowe Thompson, U.S.N., at Colon, Panama

BERKELEY, June 24.—Mrs. Herbert H. Jenness and Miss Lorette Jenness, about bidding good-bye to their friends in this city before leaving on July 6 for Colon, Panama, where the latter will become the bride of Lieutenant Robert Rowe Thompson, U.S.N. The wedding is to be celebrated immediately upon their arrival at the isthmus.

It was at first feared that the unsettled condition of affairs in Mexico might disturb the nuptial plans of the young couple, but these promises now not to do so. Lieutenant Thompson's ship is stationed on guard duty at the Atlantic entrance to the Panama Canal, and it is expected it will be retained there in case of difficulties with the neighboring republic. No word from the young officer regarding any possible change in plans for his boat has been received here.

To pay their adieux, Mrs. and Miss Jenness are to leave for Panama tomorrow morning.

PORTUGUESE HERE FOR HOLY SERVICE

San Leandro to Be Scene of Three Days' Celebration by Lodges.

SAN LEANDRO, June 24.—Coming from all parts of the east bay region hundreds of Portuguese are taking part today in a three days' celebration of the feast of St. John, which commenced here last evening under the auspices of the I. D. E. S. of St. John.

The celebration started last night with the blessing of bread and wine afterwards distributed, and the dedication of the new I. D. E. S. hall on Orchard avenue. A dance and band concert were held at the hall while varied amusement concessions were in full swing in neighboring streets. Orchard avenue and part of Davis street are illuminated by strings of electric lights.

The carrying of the crown from the home of Louis Dias to the I. D. E. S. hall will be the occasion of a procession this evening which will be followed by a band concert, fireworks and dancing.

Parading from the I. D. E. S. hall tomorrow morning are representatives of influential Portuguese fraternal organizations in full regalia and headed by a band. The procession will start from the hall to St. Leander's Catholic church. Solemn high mass will be celebrated there at 10:30 o'clock. Among the organizations which will join in the parade are Councils of the I. D. E. S., S. P. R., S. L. U. I. E. S. and U. P. E. C. Following the custom of the I. D. E. S., order, 12 needy men of this district will receive a complete outfit of clothing from the I. D. E. S. of St. John.

The drill teams of the S. P. R. S. I. and U. P. E. C. will also march in the parade as well as a battalion of the R. A. B. M. J. from San Leandro, Oakland, Santa Clara and Pleasanton.

A luncheon to which everyone is welcome, dancing and other diversions will follow the church ceremony tomorrow. Miss Louisa Dias is queen of the celebration and is attended by a host of daintily garbed handmaids.

The committee in charge of the celebration consists of the following members of the I. D. E. S.: A. R. Mattos, president; A. G. Gouveia, vice-president; E. T. Soares, Jr., secretary, and J. M. Boga, treasurer.

COUNTY DIRECTORS MEET.
TAYLOR, June 24.—County directors of the Farm Bureau are meeting this afternoon in the bureau headquarters here. The majority of the 18 directors are in attendance including directors recently elected. General business matters are under discussion.

news are to be at home tomorrow and next Sunday afternoon at their attractive Virginia-street home. No cards have been issued for the "at home," but a general invitation is extended to the Jenness' friends.

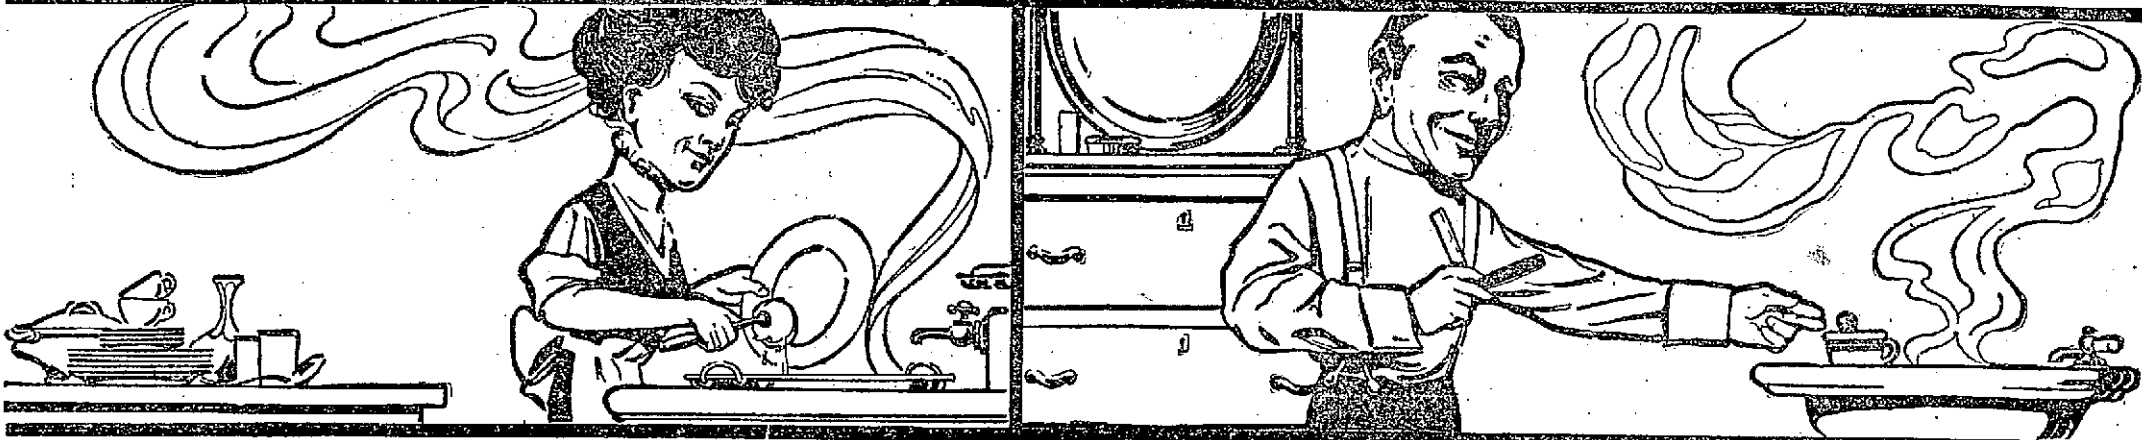

Mrs. Jenness, with her two daughters, Misses Lorette and Flora, and a party of friends returned Sunday from a delightful trip up the Sacramento river in their yacht, the Dawn. They left the yacht at Colusa, returning by train, and it was brought down this morning by Mr. Jenness.

SOCIETY News and Views of Activities of WOMEN Uncle Wiggily KIDDIES

OF CONFESSIONS & PROXANE

by FRANCES WALTER.

How can you tell if any one loves you? Would you be unhappy if the object of your affection treated you without deference and looked upon you with coldness? Could you continue to love if there was never an opportunity to demonstrate it? Arthur thought he could, but Roxane's nature was, apparently, different.

WE TALK OF LOVE

(Copyright, 1916, by the McClure Newspaper Syndicate.)

As I talked with Arthur my mind drifted back to those first girlhood thrills when dolls and fairy stories are put aside for party dresses and boys, and when kissing games are first made known to blushing and embarrassed children. I had never been a demonstrative girl. My affections had been genuine but without emotion and I had never understood the impetuous "lovers" of fiction.

Arthur and I were living in a quiet suburb. Something had happened. But what? I had no clue to the ultimate situation which must come as a solution to my awkward position as a wife. Arthur was tender and seemed to breathe his love, and I am sure there were times when he could read in my eyes and see in my manner all the invitation a wife could offer to a husband she loved.

But I never dared let go of that artificial reserve which had daily come to be more of a burden. I was—foolishly too, I know—that I was withholding my power against those of Arthur. His consideration, his wonderful preoccupation, his self-elimination of self, in a domestic situation, was something that I could not allow him to have. I was not allowing him to have many privileges seemed impossible. Of course I had heard of such things and read of them, but never dreamed that I could be so foolish.

For I knew I was coming to love Arthur with a passion fast growing beyond control. Every woman is conscious of this thing in her soul, for it expresses itself in so many intimate ways. I knew that I was withholding my power against those of Arthur. His consideration, his wonderful preoccupation, his self-elimination of self, in a domestic situation, was something that I could not allow him to have. I was not allowing him to have many privileges seemed impossible. Of course I had heard of such things and read of them, but never dreamed that I could be so foolish.

But I never dared let go of that artificial reserve which had daily come to be more of a burden. I was—foolishly too, I know—that I was withholding my power against those of Arthur. His consideration, his wonderful preoccupation, his self-elimination of self, in a domestic situation, was something that I could not allow him to have. I was not allowing him to have many privileges seemed impossible. Of course I had heard of such things and read of them, but never dreamed that I could be so foolish.

"I thought love was a demonstrative proposition," I said.

But I knew I was coming to love Arthur with a passion fast growing beyond control. Every woman is conscious of this thing in her soul, for it expresses itself in so many intimate ways. I knew that I was withholding my power against those of Arthur. His consideration, his wonderful preoccupation, his self-elimination of self, in a domestic situation, was something that I could not allow him to have. I was not allowing him to have many privileges seemed impossible. Of course I had heard of such things and read of them, but never dreamed that I could be so foolish.

But I never dared let go of that artificial reserve which had daily come to be more of a burden. I was—foolishly too, I know—that I was withholding my power against those of Arthur. His consideration, his wonderful preoccupation, his self-elimination of self, in a domestic situation, was something that I could not allow him to have. I was not allowing him to have many privileges seemed impossible. Of course I had heard of such things and read of them, but never dreamed that I could be so foolish.

But I never dared let go of that artificial reserve which had daily come to be more of a burden. I was—foolishly too, I know—that I was withholding my power against those of Arthur. His consideration, his wonderful preoccupation, his self-elimination of self, in a domestic situation, was something that I could not allow him to have. I was not allowing him to have many privileges seemed impossible. Of course I had heard of such things and read of them, but never dreamed that I could be so foolish.

"I could not rush up to him and kiss him, although I felt impelled to do so every time I saw him."

by this is it demonstrative. Of course, after the object of this love is aware of it, and desires to reciprocate it, then there is a more definite and exultant demonstration. Sometimes it takes the form of kissing.

"I have not seen anything in your outward aspect that would make me want to kiss you, Arthur."

"Perhaps your bump of observation is undeveloped."

There the conversation ended for the night. In my bed I wondered if the reference to the bump of observation did not imply that I was not kissing him. Surely, there was enough about me to show that I loved him. I felt that I told him every time I looked at him, and I feared to look at him lest he should know. On the other hand, I had seen nothing in Arthur that would give me an inkling of any feeling except the heartiest of friendliness. I thought over his words. Perhaps if I were a bit more demonstrative it might make a difference. If he really wanted me to love him, and I showed him that I did, possibly he would respond.

Then I was confronted with the problem of what to do to be dignifiedly demonstrative. I could not rush up to him, throw my arms about him and kiss him.

(To Be Continued Monday.)

But I never dared let go of that artificial reserve which had daily come to be more of a burden. I was—foolishly too, I know—that I was withholding my power against those of Arthur. His consideration, his wonderful preoccupation, his self-elimination of self, in a domestic situation, was something that I could not allow him to have. I was not allowing him to have many privileges seemed impossible. Of course I had heard of such things and read of them, but never dreamed that I could be so foolish.

Call to Colors Reconciles Guardman and His Wife

SAN FRANCISCO, June 24.—Domestic differences were buried and forgotten by at least one married couple in San Francisco yesterday with the call to the colors of Company B, Signal Corps, National Guard of California. Private Maurice Root of the company and his wife, Mrs. Root, who is a nurse, had been separated several weeks, both said, had threatened to become permanent, were reconciled at the Armory shortly before the departure of the company, and there was an affectionate leave-taking at which both agreed to let bygones be bygones.

Mrs. Root said afterwards at her home, 1132 Leavenworth street, "We had quarreled over several things, and three weeks ago we decided that we could no longer live together. But that's all in the past now."

Mrs. Root saw by the papers yesterday that the company had been called to the colors, and she decided to go to the Armory early.

"I want to see if Maurice was going," she said. "I knew that some time we had been excused, but I should have been disappointed if my husband had taken advantage of any excuse."

Root, who is a chemist, and his wife had an unpleasant experience at Juarez, Mexico, in January, 1915, when they were arrested by the Mexican authorities on a pretext, she says, and passed several hours in jail.

There were two reasons for feeling pride in Maurice, she said. "One is that he has responded to the call for men, and the other is that he may have an opportunity to fight the Mexicans."

Mrs. Ferdinand Bain Is Called by Death

SAN FRANCISCO, June 24.—A sudden death Thursday evening in Santa Barbara, Mrs. Ferdinand Bain, wife of the president of the Southern Counties Gas Company, and daughter of the late Charles Bain of San Francisco.

Almost on the eve of a projected visit to Mrs. Russell Wilson of Burlingame, Mrs. Bain succumbed to heart trouble at her beautiful Santa Barbara home. "The heart" she had been suffering from for some time, and she had been in the hospital for several days.

The first intimation that Mrs. Bain was ill came in a telegram received Wednesday night by her daughter, Mrs. E. C. Gantz, wife of Lieutenant Harry Gantz, U. S. A., who had been here about a week.

Mrs. Bain left immediately for Santa Barbara, but Mrs. Bain passed away before her arrival.

Her first husband was Charles W. Bain, who was president of the Hamilton-Hopkins Company of San Francisco, and the owner of the Southern Counties Gas Company of Philadelphia. She was married to Bain in New York City, February 1, 1911.

Mrs. Bain family was as well known in this city as in the south.

Advertising Body in Huge Conclave

Ten Thousand Delegates Will Be in Attendance at Philadelphia.

PHILADELPHIA, June 24.—With a clatter of typewriters and a hum of telephones, the advertising body of the World's Fair, which is to be held at Philadelphia, is in the midst of its preparations.

As each delegation rolled into the city, the advertising body was in the midst of its preparations. The advertising body is in the midst of its preparations.

Delegates from every estate in the United States and every large and small city of the world are expected to be present.

The advertising body is in the midst of its preparations. The advertising body is in the midst of its preparations.

The advertising body is in the midst of its preparations. The advertising body is in the midst of its preparations.

GARIS' BEDTIME STORY

UNCLE WIGGILY AND THE CORN.

HOWARD D. GARIS

"Well, where are you going today, Uncle Wiggily?" asked Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper, as she saw the bunny gentleman starting out from the hollow stump house on his new farm.

"Oh, I am going to look at my cornfield today," answered Mr. Longears. "The ears are growing nice and large, but I want to whisper in them that they must grow even larger before they are ready to pick."

"Whisper in whose ears?" asked Nurse Jane.

"The ears of corn, of course," answered Uncle Wiggily with a laugh.

"The ears of corn can't hear you," said the muskrat lady.

"Of course they can't," said the muskrat lady.

"All right," laughed Uncle Wiggily. "Anyhow, I am going off to my cornfield to see how it is growing. And I hope the bad fox doesn't try to get me or the skilful-sally alligator, for I couldn't fool him and give him some round, brown stones, and tell him they were ears of corn, as I did with the potatoes."

"No, indeed," said Nurse Jane.

So the bunny gentleman went off to his cornfield, and he walked up and down the rows, where the green stalks were growing, and he really did pretend to talk in the ears of corn, though whether they heard him or not is not any of our business.

Wind whispered through the leaves, and the corn seemed to listen, for each stalk bent its head when the wind told it to.

"Well, I guess I am to have no adventure today," thought Uncle Wiggily to himself, as he came to the end of the cornfield. "I may as well go back and see how many beans are coming on."

He started back, and just as he did so, he heard a sad little voice saying

SATURDAY, JUNE 24, 1916.

A SPURIOUS TARIFF PLANK.

By far the most remarkable plank in the Democratic platform just adopted at St. Louis is that concerning Democracy's oldest campaign subject—the tariff. It marks something more than a radical departure from the traditional stand of the party on the tariff question; it is a pledge of the party leaders to support an entirely strange (to them) doctrine of import duties, the policy of protection. Let us inspect an extract from the tariff plank:

We recognize that tariff rates are necessarily subject to change to meet changing conditions in the world's production and trade. Two years of a war which has directly involved most of the chief industrial nations of the world, and which has indirectly affected the life and industry of all nations, are bringing about economic changes more varied and far-reaching than the world has ever before experienced.

We cordially endorse this timely proposal (of a tariff commission) and declare ourselves in sympathy with the principle and purpose of shaping legislation within that field in accordance with clearly established facts, rather than in accordance with the demands of selfish interests or upon information provided largely, if not exclusively, by them.

In order to appreciate what a complete reversal of policy these declarations represent, it is only necessary to recall former expressions of the platform builders. In 1876 they said, "All customs house taxation shall be only for revenue"; in 1880, "a tariff for revenue only"; in 1884, "Federal taxation should be exclusively for public purposes . . . and shall not exceed the needs of the government, economically administered"; in 1892, "it is a fundamental principle of the Democratic party that the federal government has no constitutional power to enforce and collect tariff duties, except for the purpose of revenue only"; in 1896, "tariff duties should be levied for purposes of revenue . . . and taxation should be limited by the needs of the government"; in 1904, protection is "robbery of the many to protect the few," and in 1912, "we declare it to be a fundamental principle of the Democratic party that the federal government under the constitution has no right or power to impose or collect tariff duties except for the purpose of revenue."

There is a wide difference between this group of declarations and the plank of the St. Louis platform. The latter, by recognizing the relation between tariffs and economic conditions, pledges acceptance of a protective tariff for domestic industries. Fortunately we have an accurate history of performances. The party, when in power, has never recognized that "tariffs are necessarily subject to change to meet changing conditions." It makes no such recognition now in practice. In its revenue raising schemes to meet the appropriations for 1916-17 the administration is not levying tariff duties even adequate for government expenses, and certainly it would not admit that the government is now not economically conducted. It prefers direct taxation. In one item of imports, coal tar dyes for the textile industry, it is not disputed that economic conditions of the world make it imperative that the United States develop the manufacture of these dyes. The value of dyestuffs normally imported is only about ten million dollars a year, but they affect industries with an annual output of several hundred million. Yet the administration and the majority in Congress will countenance no tariff on dyes, though it alone will enable the development of a small new industry absolutely necessary to our economic independence.

In striking incongruity the declaration above quoted is included in the same paragraph as that affirming complete faith in and giving full endorsement to the Underwood tariff law. It is also worthy of note that Senator Underwood and other Democratic leaders in Congress are opposed to the new platform idea of protection.

The obviously correct conclusion is that the administration has no intention of carrying out, or any prospect of being permitted by the representatives of the party in Congress to carry out, the policy lately enunciated. It would be a blow at the vitals of the emaciated body of Democratic doctrines and is one the upholders of those doctrines cannot suffer pacifically. The plank is molasses to catch flies. It will receive no attention after the election.

The promotion of Vice Admiral H. T. Mayo to be admiral of the Atlantic fleet, recalls the

Tampico incident and the demand upon the late dictator Huerta to salute the American flag. Huerta did not comply, but he was forced to flee his country and he died a broken man in the country he so cordially hated. This lesson was not impressive enough to subdue Mexican official insolence and Admiral Mayo may yet have an opportunity to complete his job.

PACIFISTS SHOULD EXPLAIN.

If the pacifists and peace-at-any-price propagandists are sincere in their belief and arguments that unpreparedness will insure peace they should in all conscience explain the conditions that prevail in Mexico and along the southern border of the United States. We were not prepared when the trouble first threatened over three years ago and refused stubbornly to take any step that might be interpreted as preparedness. The President of the nation employed pacifist methods exclusively in dealing with the Mexicans. He waited and watched; used kind and soft words; "turned the other cheek" time and again; condescended, commiserated, and sympathized; played one faction against the other; called upon other governments to help him erect the lovely figure of cordiality and goodwill; he called American citizens who ventured to tell him the truth about the situation liars, meddlers and self-seekers.

Despite these pacifist methods, which Ford and Bryan and their followers approve, we have had three years of bloodshed, which in the last four months has grown to alarming proportions. Men are being killed at a more rapid rate than was the case in the Spanish-American war and the Philippine insurrection. And now we are faced with the prospect of throwing 150,000 or 200,000 of our men into a district infested with nearly every known disease and species of filth, to say nothing of the other risks of warfare.

NEEDED AT HOME.

American aviators have distinguished themselves in the service of the French and British governments. They have also won high recognition for their services. In France, American aviators have been organized into a separate corps and have become famous for their bravery and efficiency. Americans have become an important factor in the aerial defenses of London. Many have been given the rank of officers and decorated with orders of merit.

If we have to wage war against Mexico aviators will be in demand, especially fliers who have seen active service over the firing lines. Should the men now serving in the armies of Europe return home and offer their government their services, as we expect them to do, the government should accept with alacrity. In the meantime the war department should secure aeroplanes that will fly, equipped with motors that will motor.

The army appropriation bill just passed by the House, carrying appropriations for the next fiscal year, falls far short of the promises of the army reorganization bill which has been signed by the President and which received notice in the St. Louis party platform as being evidence of the stand of the administration in favor of preparedness. The reorganization bill promises a strength in the line of the army of 175,000, but which we have pointed out should be accepted as meaning only 160,000; the latter is the minimum line strength under the law, and the minimum is certain to be our maximum. The appropriation act only provides for 105,000 men, exclusive of the staff corps. Therefore the army will not be able to recruit to more than this strength until after June 30, 1917. Perhaps this represents as many new men as the adjutant-general thinks he can enroll during the next twelve months. The circumstance is recalled here merely to show with what facility the administration promises one thing and performs another.

In his nominating speech at St. Louis Judge Westcott referred to President Wilson as the "world pacificator." To those who wonder at the inappropriateness of this title, we need only say that the judge is not of that type of orator who lays great stress upon facts or who prefaces his conclusions with evidence and logical reasoning.

THE LARGEST CITY.

(From the New York Sun.)

Los Angeles reminds the whole world that she is the largest city in the United States, having 23.17 more square miles than New York, almost twice as many as Chicago, nearly three times as many as Philadelphia. Envious San Francisco is chilled to the core from Golden Gate to Hunter's Point and from Nob Hill to Chinatown by the news; the once proud metropolis of the Pacific coast is not even in the reckoning.

This spacious California town has chosen its time to "point with pride." In the days of the great real estate booms in the late '80s and the early '90s of the last century, Los Angeles would not dare thus to boast. Indiana and Illinois farmers far out of sight of the glided dome of the State House and beyond the literary belt are still ploughing up stakes marking ancient additions to Indianapolis. Kanapolis, once the "center of Kansas, the center of the United States," limited its boundaries only by the horizon and was ready to plot the world. Vancouver, B. C., in its balmy days laid out every square mile from Puget Sound to the snow line of the Rockies.

Wichita, Kan., thirty years ago, too, said she was bigger than New York. Wichita lost many of her town lots to the wheat and corn field, but she encircled the flaming roof of Victor Mordock and the shining dome of Henry Allen. Let Los Angeles stretch her belt as she will, or cut her ox skin narrower than did Dido at Carthage, yet she cannot encircle two such edifices; the best she can do is to reach out and gather in the thatch roof of Hiram Johnson.

Los Angeles made her conquest without strife, fire or shell. She won with water. She built a 250-mile aqueduct to mountain springs; then she said to Westgate, Occidental, Orangeview, Lemonville, be mine or you will waste without a drop of water to wet your parched throat. They all capitulated. This Los Angeles in these war times points the way to a means of peaceful aggression and conquest.

NOTES and COMMENT

By the way—Villa? So much else to engage the attention that he is getting overlooked.

The Japanese in Mexico are probably not partisans of the United States in the present imbroglio. But it is not believed they are overtly against this country.

Governor Johnson is on his way. In the meantime the boys in the office are doing their best to pull California through its considerable emergencies.

"Progressive leaders are conferring," we are informed in a despatch. They will have to hurry or from the rate at which their followers and newspapers are coming back into the fold very soon there will be nothing to confer over.

The Portland Oregonian puts it that "the United States, on the eve of war with the de facto government of Mexico, is the climax of our three years of watchful waiting for Mexico to settle down, of our patient tolerance of Mexican crimes and insults."

Senator Thompson, acting governor of California in the absence of everybody else qualified for that job, is in command of the state's military forces that are mobilizing. It is understood, however, that the governor will be back in time for the first serious dress parade.

The Stockton Mail puts it rather nicely this way: "All the gibes and alleged pleasantries, fired at the 'tin soldier' in times of continued peace melt away in the face of impending trouble; the state troops become 'our boys,' and mighty blooming glad we are to have them to depend upon."

We are able now to read in our own war news a name that suggests some of those participating on the eastern front in Europe—General Wankowski (pronounced Vankoffsky). He commands the first brigade N. G. C. and is of Los Angeles. He is a regular American.

They are always staging something spectacular at Marysville. Now one of its residents sneezed so hard that he broke two ribs. This item might be prolonged to the point where it is suggested that there is nothing to sneeze at in that stirring river town, but we will let it go at that.

The prospects of war make Gene think of matrimony, according to the Holtville Tribune, which tells about it thus: "Eugene C. Hunter says that never before has he thought so seriously of matrimony as he has since he heard there might be war. Now Gene is a fine chap and we'll wait to see him get a good wife. So far, he says, he has no one in particular in view, but knows of several good prospects."

Judge Horace E. Souder, formerly of New York but now accredited to California, gets quoted in the Washington Post as saying that "Theodore Roosevelt would probably have been the weakest man the Republicans could have nominated on the day the nomination was made, but unless I am greatly mistaken, he would have been the strongest vote-getter on election day." Judge Souder might get a rise from that contention except that it is all over and treatment of the subject along those lines is innocuous.

Some informing particulars from the Los Angeles Graphic: "Former Lieutenant-Governor Wallace, upon his return from the Progressive convention, was strangely silent regarding his boom for the Works seat, which may be said to have prematurely blossomed several months ago, when it appeared that Theodore would again lead the third party. But from the haste with which the rage of Los Angeles has climbed into the band wagon in support of Hughes, I take it that he is holding forth; hope that repentant Progressives need not renounce all political aspirations when they return to the Republican fold."

The editor of Redlands Facts writes home thus about the Teddy demonstration in the Republican convention: "Tight back of me were two leather-jungled ladies, professional slingers of the music hall type, and they worked in relays. They gave a regular Comanche yell and kept it up all these thirty-nine minutes. They had strong, shrill voices, and were answered from the floor of the convention, where one delegate from New Mexico with a voice like a foghorn answered them back yell for yell when other people grew tired. The younger of the two remarked when she went out that she had earned her money."

SPIRIT OF THE STATE PRESS

A San Francisco man is reported to have discovered the German method of making aniline dyes, but he will be unable to manufacture them in this country until a Republican tariff is provided that will protect him.—Santa Ana Blade.

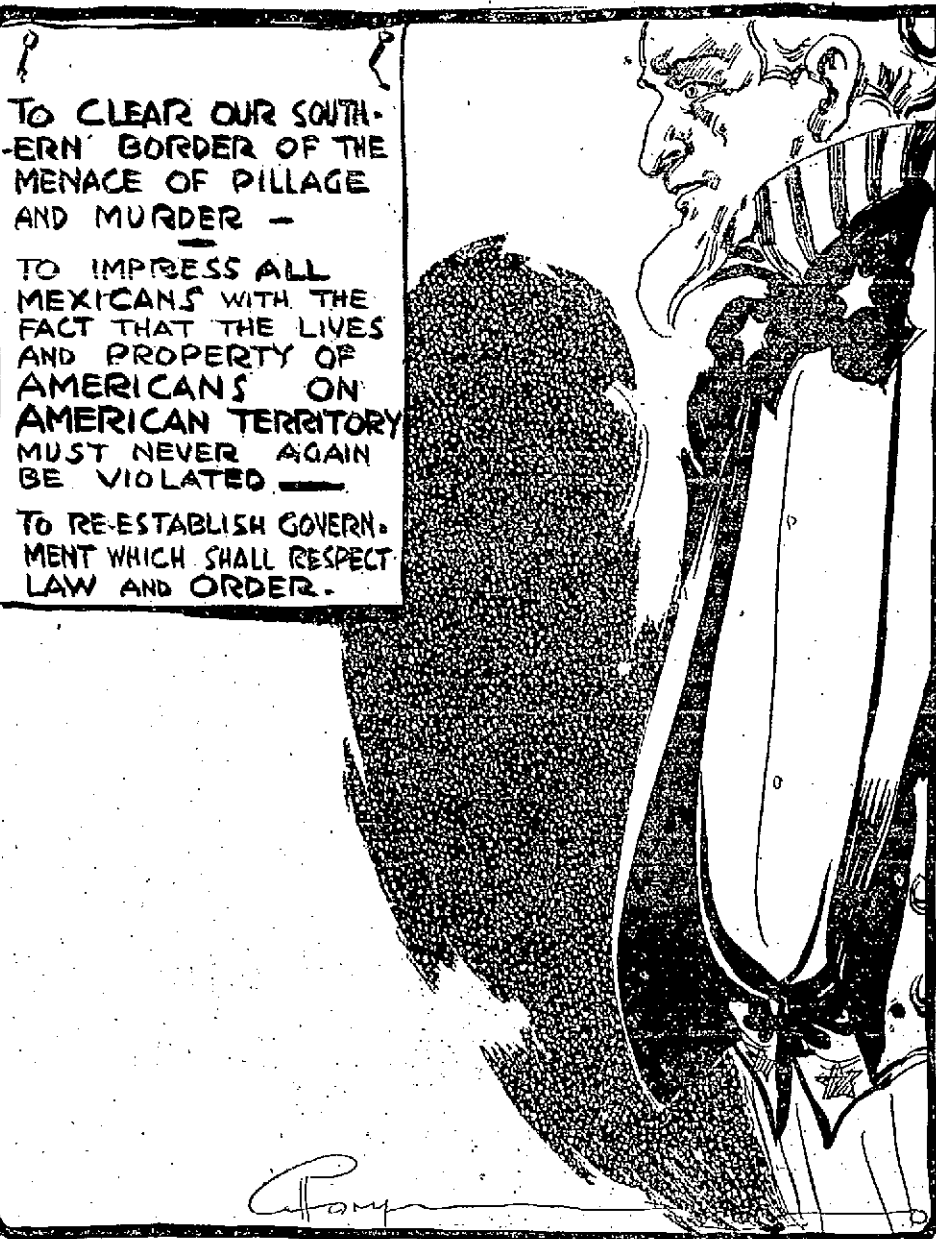

Friends of Dick Collins claim that he would have no trouble in defeating Congressman Baker, we are told. "Our Dick," like some others, can thank God for his enemies.—Reading Searchlight.

St. Louisans now say that they could have built a useful public library for the \$100,000 which they paid for the Democratic zoo.—Hartford Sentinel.

A few quadruplets hence Los Angeles, San Francisco, Portland and Seattle will be formidable contenders for national political conventions, and this coast frequently will get one or both of the greater conventions.—Pasadena Star-News.

The Bert Lewis Clothing Company of Stockton has just been awarded a big contract to supply the hats for the state hospitals and prisons of California for the ensuing year. The contract calls for 413 dozen hats.—Tracy Press.

UNCLE SAM—"THAT'S THE IDEA"

PRESIDENT WILSON'S COURSE

Colonel Irish Says Executive's Activities in Mexico Have Been Beyond the Right and Outside the Proprieties of His Position

To the Editor of The Tribune:

Credible information convinced me that the forces that make for law and order in Mexico regarded Huerta as the only man able to pacify that country and bring peace out of chaos and anarchy. The same sources of information convince me that Carranza can never do this. President Wilson's course has been ill advised. By taking sides with Villa against Huerta he became partisan to one side of a civil war in a foreign country, which was not only beyond the right but outside the proprieties of his official position.

Lifting the arms embargo first for Villa and then for Carranza has supplied them with a formidable joint equipment of arms and munitions, now to be used against our troops. The most primary principles of foresight and caution required that a tight embargo on arms should be maintained against all parties to the Mexican strife, for with exhaustion

of the means for fighting it would cease. A calm survey of the situation since Wilson became president discloses the fact that there was just as much cause for intervention and war with Mexico from the moment of Huerta's flight as there is now. The provocation exists now in degree only and not in kind.

President Wilson placed Carranza, an unprincipled weakling, in power. His policies require that he defy the United States in order to hold his position. If the suspicion deepens into certainty that President Wilson delayed an overdue crisis until it would favorably affect his own campaign for re-election, history will furnish the sorry spectacle of two politicians mutually embroiling their countries for the effect upon their personal ambitions and political fortunes.

In this situation the honor of our own country has been put at stake and patriotism requires its aroused vindication.

JOHN P. IRISH.

Oakland, June 22, 1916.

CLOSING THE OPEN DOOR

"In our Asiatic relations it is observable that the open door has been steadily closing since the Russo-Japanese war on account of our helping Japan to 'lick Russia.'"

Former President Taft thus summed up in a recent speech the tendency of events in China. His remark recalls vividly the enthusiasm with which Americans cheered the Japanese in their struggle with Russia and the rapid dampening of that enthusiasm when the Portsmouth peace conference disclosed the truth regarding the Asiatic situation. Sympathy turned toward Russia, and ever since that time there has been a marked coolness toward Japan.

Taking advantage of the war in Europe and the disturbances in China, Japan has steadily striven to attain a position of overlordship in China, to the disadvantage of other nations. The most tortuous diplomacy, backed by threats of war, has been employed, while the United States and other nations have been repeatedly assured in the most solemn language that Japan's aims are not inimical to the interests of other nations. Yet the door is

closing on China's independence, as well as on the world's commercial interests.

The United States is not only entitled to maintain the open door in China, but its right to do so is acknowledged by Japan. The Root-Takahira notes clearly outline the policy of the United States and Japan toward China; mutually agreeing to uphold the integrity of China and the policy of the open door. In case the status quo in China is endangered, the United States and Japan agree to exchange views for the purpose of safeguarding the interests of all nations.

The time may be at hand when the United States will be required to ask pointed questions of Japan as to its intentions in China and to demand guarantees that the status quo shall not be altered by the imposition of demands that have been made by Japan. Vigorous and vigorous maintenance of Chinese territorial integrity and the open-door policy is necessary on the part of the United States. Japanese encroachment is silent but unceasing. It can be checked by the American government if action of the proper kind is taken in time.—Washington Post.

THE JESTER.

An important One.
"Thompson has made a discovery."
"Indeed."
"Yes. He says that he has discovered that the more buttons there are on a woman's coat the greater the probability that it really fastens."—Detroit Times.

Reasonable.
The telephone rang and the new maid answered it.
"Hello!" came from the receiver.
"Hello," answered the girl timidly.
"Who is this?" again came the voice.
"I don't know who it is," said the girl.
"Can't see you?"—Christian Register.

An Exception.
"Remember, my son, said the father, 'that politeness costs nothing.'"
"Oh, I don't know," returned his hopeful son. "Did you ever try putting 'very respectfully yours' at the end of a telegram?"—Ladies Home Journal.

Misfortune Grace.
There was a young curate of Kildermaster,
Who very reluctantly chide a spinster,
For she said things not nice,
When she fell on the ice,
And he quite inadvertently slid against her.
—Christian Register.

TWENTY YEARS AGO TODAY

The wedding of William Burrows of Santa Cruz and Miss Hester Durr of this city will take place in July.

A ripple of excitement has been caused in society circles by Mr. and Mrs. Isaac L. Requa's announcement of the betrothal of their daughter Amy to Colonel Oscar Hitzman Long of Washington, D. C.

The Christian Endeavor Union of this city held an election of officers last evening at the Y. M. C. A. rooms. H. J. Walters was elected president and E. T. Letter vice-president.

Nat Goodwin is playing in this city in "Mizzoura."
Mrs. G. T. Burchell and her daughter Laura are visiting in Capitola.
Miss Florence Edott will leave shortly for Alta.

Mrs. H. B. Winton is visiting in Capitola.

MUNITIONS WHILE PISTES LAST.
The people who think there would be peace if all the munition factories were destroyed forget that there was war before guns and gunpowder were invented. If the man who wants to fight cannot get a gun he finds a stone or a big stick, and he does not take the trouble to speak softly, either.—Philadelphia Evening Ledger.

THE FORUM

The Editor of The Tribune declines responsibility for opinions and statements expressed in this column. Brief contributions on current topics of general interest are welcome. They will act as a rule be printed unless accompanied by the name of the writer, which, if desired, will be withheld from publication.

EMPLOYERS' LIABILITY.

To the Editor of The Tribune:
It is not our desire to abuse the use of the Forum—we consider it a column of great value to the public, neither do we desire to wear one subject "through bare." Noting the reply of "One of the Staff of the Industrial Commission" under date of the 19th to the query of the "Five Tribune Subscribers," we ask for space in the Forum to set forth our findings. We have consulted an attorney and he gave us his gratuitous legal opinion, which we give in brief for the benefit of the many, who are daily entering into arguments involving a great risk without a thought of first applying to the Industrial Accident Commission for expert advice. There are many who are unwittingly pinning themselves liable to action and possible loss of property under the many phases and peculiar interpretations of the Workmen's Compensation Law, and under the uncertain interpretations, the attorney in question laconically advises "safely first" on the part of the employer—in other words he says, "better be sure than sorry." Therefore, in addition to paying the monthly amount to the workman's pay also the premium for insurance against compensation liability. Or, in case the patrol agency pretends that they are attending to the insurance and that in this manner the employers of their workman are exonerated from any and all risk—see to it that this statement is contained in your contract with the patrol agency, and that this statement contained in said contract is in some manner approved or bears the O. K. of the Industrial Accident Commission.

FIVE TRIBUNE SUBSCRIBERS.
June 22, 1916.

PRaise for Hospital.

To the Editor of The Tribune:
In justice to the Merritt hospital, I would like to add a few words to what has already been said.
On February 4 I applied for admission to the Merritt hospital as a free patient, was accepted February 13, operated on the 15th. I remained at that splendid institution for three weeks; during that time it could not have been possible for me to have received better care than what was given me had I been paying \$25 a week. I had a good comfortable bed in a large, sunny ward. In that ward there were five other beds, each one having a patient on it, and all receiving the same kind treatment given me, both from the doctors and the nurses of the hospital.

MARY K. JONES,
2618 Harold street.
Oakland, June 22.

A PRESCRIPTION FOR ACQUIRING WEALTH.

I never could believe it. That Willie would achieve it. He never seemed to me to have much sense.

And yet he has acquired a roll that makes him tired. It money talks Bill's full of eloquence.

He'd bought a stock so sickened. None thought it could be unticked. Until it paid a profit you could count. It bloomed a War Bride thrifty. With dividends no nitty. Bill's cash in bank began in leaps to mount.

Which goes to prove, I'm thinking. A fact the world's been blinking. Just hang to it, nor let attention twitch. Paradoxical and funny. Though it seems, if you want money. You'd better be born lucky than rich.

—Richmond Times Dispatch.

DETAILS OF BIG P. A. A. REGATTA HERE MADE PUBLIC

**San Diego Oarsmen Will Pit
Skill Against Bay Crews
Here July 4:**

The Pacific Association of Amateur Fishermen, at a special meeting held on Thursday evening, arranged the following details for the regatta to be held on Lake Merritt, Oakland, at 2 o'clock on the afternoon of the Fourth of July.

The order of the races and entries announced are as follows:

First—Junior Skiff. Alameda: C. Hansen and P. Patrick; Arrels: R. Jordan; Dolphin: A. Hullon and Anatin; San Diego: J. Dunder, W. Wilson; San Diego: H. W. Reed.

Second—Junior Barke. Alamedas: H. Anderson, stroke; C. Taylor, No. 3; A. Munthe, No. 2; C. Follman, No. 3; C. Hansen, coxswain. Arisles, P. Rolfs, stroke; W. Born, No. 3; B. Rohr, No. 2; F. Cihmme, No. 1; Maurice Gutfeld, coxswain. Dolphins: Buldazoni, stroke; Wulla, No. 3; Sterling, No. 2; Molzaan, No. 1. Kenist, coxswain. South Ends: P. Spanda, stroke; J. Robinson, No. 3; W. Berbenba, No. 2; F. Nling, No. 1; R. Nling, coxswain.

Third—Outter. Rans

Fourth—Senior Barge. Alameda: J. Roche, stroke; Geo. Hansan, No. 3; C. Hacke, No. 2; P. Hacke, No. 1; C. Hansan, coxswain. South Ends: W. Wilson, stroke; Ted Mairs, No. 3; Tony Glensnar, No. 2; K. R. Varney, No. 1; Tommy Beggs, coxswain. San Diego: A. Ponz, stroke; H. T. Raupke, No. 3; D. Erchura,

Fifth—Cutler Race,
Sixth—Intermediate Barge, Arlans: F. Parker, stroke; E. Brown, No. 9; J. Ren-
nik, No. 2; A. Blin, No. 1; J. Parker,
coxswain. South Ends: B. Wallis, stroke;
F. Swain, No. 3; Steel, No. 2; J. Hous-

dict, No. 1: J. Hunt, coxswain.
Seventh—Senior Skiff. Alameda: J. Roche, Fred Hacke. Dolphins: W. Rigney. South Ends: Tony Gleasner. San Diego: A. Peas.
The officials of the regatta are as follows:
Referee, H. C. Nielson. Starter, J. E.

Scully, Marshal of the race course; J. J. Cronin, Assistant marshal; Jas. Willaon, Assistant marshals for the different clubs; Alameda, G. Fellman; Ariels, E. Brown; Dolphins, B. P. Vicini; South Ends, K. R. Varney; San Diego, Fred Connor.

Judges at the finish: Alamedas, Al

Brampton; Ariels, John Hardy; Dolphins,
 T. A. Kenliff; South Ends, V. S. Shawall;
 San Diego, N. E. Brown.
 Judges at the turn: Alamedas, A. G.
 Bell; Ariels, R. Tennia; Dolphins, R. A.
 Dupuy; South Ends, Dodge Riedy; San
 Diego, N. W. Soara.
 Timers: Alamedas, Rob Norton; Ariels,

Ed Wilson; Dolphins, John S. Phillips; South Ends, S. P. Virgilio; San Diego, Wm. Unmack.
Scorers: Alamedas, Ed Kearney; Ards, Chas. Wilson; Dolphins, S. B. Vicini; South Ends, Joe Lunade.
The different clubs are to be distinguished by respective colors as follows:

Alamedas, white shirt and green sash.
Arleis, white shirt and blue sash. Dol-
phins, blue shirt and white sash. South
Ends, red shirt and white sash. San
Diegos, white shirt and red sash.

BRYN MAWR WIN AT POLO.
PHILADELPHIA, June 24.—The Bryn

Mawr Freebooters defeated the Devon polo team 8½ to 8½ goals in the final match for the McFadden cup yesterday at Devon. Bryn Mawr earned 10 goals and lost ½ by penalty. Devon earned 1, was allowed 3 by handicap and lost ½ by penalty.

George Stallings is a Georgian, but he comes out for Hughes because of the latter's no-hit shutout.

MANUFACTURER'S NEWS

BERKELEY **OAKLAND** **RICHMOND**

FACTORIES OF ALAMEDA COUNTY SHOW BIG GAINS

Enlargements, Improvements, New Equipment, Statistics, New Industries and Information of General Character

quality are equal.

Practically every needed commodity is made in the bay region. Assimilate information regarding the factories and the products made and do your part in furthering the sale.

Money spent for products made on the Pacific Coast not only remains here but eventually will bring eastern men here to open branch factories to hold trade.

Two new industries are being established in West Berkeley to be devoted to the making of chemicals.	Nearly fifty new factories have located in the bay cities in the last five months.
---	--

Over 400,000 fish were planted in Alameda county streams during 1915, principally in the Alameda and San Lorenzo

The National Sheet Metal Works are turning out a large number of covers for crank cases ordered by the Deak Gas Engine

Records show some 410 awards were made to Alameda pigeon fanciers at the exposition. No other county in the state

Shipments of cereals to points in Arizona and New Mexico much above normal are reported by the Sun Milling Company of Lewis street.

The Valvesea Rotary Pump Company is working on a pump to throw 35,000 gallons of water a minute from a low sand reservoir, 10 feet below the water level of the bay.

Spott Brothers have purchased the identical carpet and rugs used in the French building at the exposition and will use them in their show rooms at 1908

A certificate to increase the capital stock of the Richmond Savings Bank from \$50,000 to \$250,000 has been filed with the

county clerk. (Clinton B. Worden is the president of the institution.)

John Everding, manufacturer of starch and soap, at Second and Bristol streets,

acquisition of five acres adjoining.

The Pacific Tank and Pipe Company has started the erection of its big factory between Bay and High streets, in

East Oakland. This factory is among the most important locating recently in Oakland.

A. J. Hunter's furniture factory at 2108 Telegraph avenue has now completed and delivered to Miss Julia Alexander a set of 20 pieces of rare furniture made from imported koa wood for her beautiful home in the Badami Heights.

The Eureka Mattress Company, recently established on Third street, is installing additional equipment to enable it to further sterilize all materials entering its

A complete list of all factories, with

data as to their products, is being prepared by the manufacturers' committee of the Chamber of Commerce. The list will include all factories of Alameda county, and will be a valuable summary for the grower.

Harvesting of the alfalfa is now in progress, and the hay is being made. The alfalfa is being used for the stock, and the hay is being used for the stock. The alfalfa is being used for the stock, and the hay is being used for the stock.

The Deak Gas Engine Company on Fifth street has posted a notice of hours for overhauling the order going into effect last Monday. Inspecting and overhauling

order will continue for a considerable period, as the company is far behind on deliveries.

Rubino Brothers, makers of frames, are rushing on orders for the holiday trade. A recent display has been installed in Capwell's store of the various products made in their factory, including

hand modeled frames, jardinières, lamps, candlesticks, candelabras, floor lamps, mirror frames and ornamental novelties.

Continued shipment of mining machinery.

ery from the Straud plant at 417 Third street is announced. The latest order comes from Scranton, Pa., the result of the exposition display. This equipment is to go to Costa Rica, Central America, South America and the West Indies. Virginia is en route to the Security Storage warehouse, the beginning of a new industry in Oakland that will use the storage facilities to supply all Coast orders for hardwoods. A stock of some

The "Columbia Point" Street

The Quick Print Shop—commercial printing department of the Tribune Publishing Company, has just delivered the new Oakland City Directory for the Polk-Husted Directory Company. The

shipped last week to handle 3,000,000 gallons of water per day against an 80-foot head, to be driven with a 20-horsepower Diesel engine. This factory has only been running about three months, yet the stream is already "completely" and "entirely" purified.

The general tendency of the paper box industry toward a shortage of materials is

The acute paper situation affects our company, which makes the following notation:

business tremendously. The paper and board mills, owing to the very unusual conditions, have announced that they will only ship a special limited tonnage to all their customers. As the tonnage allowed

John Breuner Jr., of San Francisco
is at the Hotel Oakland, and will be
in Oakland for several days, visiting
his mother.
